

THURS. MARCH 25

11:30 – 12:30 VIA ZOOM

ELECTRICAL SERVICE

Instructor: Mike Rowe, Pillar to Post Home Inspections
1.0 Elective CEU

This course will teach you:

- Basic terms and definitions
- A few techniques to determine service size
- The implications of service size and its relationship to electrical components

By the end of this session you should be able to:

- ✓ Define electrical terms
- ✓ Identify different electrical components
- ✓ Estimate the service size through first guess techniques
- ✓ Distinguish between service size and the individual ratings of each electrical component
- ✓ Describe the implications of the difference between service size and the individual ratings of each electrical component
- ✓ Outline the process and implications of upgrading the service
- ✓ Offer your clients alternatives to upgrading their service

**Disclaimer; Please be advised, that you are not able to give your clients any information unless you are certified! This class is just a basic understanding to better your own personal knowledge.*

Zoom Link will be sent the day before class to registered attendees
